Title	Page number
CHAPTER ONE: ((FOOD CHEMISTRY))	
Water	1
Proteins	1
Carbohydrates	2
Lipids	2
Maillard reaction	3
Chemistry of the reaction	3
Emulsion	3
Emulsifier	4
Casein	4
Amylase	5
Coalescence	5
Flocculation	5
Partial coalescence	5
Functional properties	6
Solidified fats	6
The conformation of casein	6
The solubility of protein	7
Emulsion formation	7
Enzyme coagulation	7
Acid coagulation	8
Heat	8
Whey proteins	8
Starch	9
Gums	9
Gels	9
Colloid	9
Xanthan gum	10
Hydrocolloid	10
Betainin	10
Caramel color	11
Vocabulary	11
Summative Test	20
Answers	21
Progress Check	23
Answers	28
Exam	33
CHAPTER TWO: ((FOOD MICROBIOLOGY))	
Introduction to food microbiology	35
Clostridium	35
Spoilage	35
Milk spoilage	36
Spoilage of vegetables	36
Canned food spoilage	36
Bread spoilage	38
Foodborne pathogens	39
Microbial growth	41
Control system	41
Sampling plan	41
Human diseases caused by milk	42
Bacillus cereus	42

Contents

Title	Page number
Clostridium Botulinum	42
Effect of heat on microorganisms	43
General feature of microbial spoilage	44
Acids as Microbial inhibitors	45
Microbial replication	45
Vocabulary	45
Summative Test	53
Answers	54
Progress Check	57
Answers	61
Exam	65
CHAPTER THREE: (INTRODUCTION TO FOOD SCIENCE AND TECHNOLOGY)	
Food science and technology	67
Food processing technology	67
Food technology research	68
Food science	68
Unit operations in Food Industry	69
Wet cleaning	69
Grading	70
Peeling	70
Caustic peeling	70
Vocabulary	71
Summative Test	78
Answers	78
Progress Check	80
Answers	82
Exam	84
CHAPTER FOUR: ((FOOD PRESERVATION))	
Heating as a food preservation method	85
Sterilization Process	85
Theory of Sterilization	86
Methods of Processing the Containers	86
Retort Systems	87
Thermisation	87
Pasteurisation	87
HTST Pasteurisation	88
Blanching	88
The Frying Process	90
Dehydration	90
Evaporation	91
Agitated Thin Film Evaporators	92
Cold Preservation	92
Freezing Rate and Quality	93
Plate Contact Systems	93
Immersion and Liquid Contact Refrigeration	93
Cryogenic Freezing	93
The modeling of food freezing	94
Traditional freezing processes	94
Preservatives	95
Fermentation as a Preservative Method	95
Fermented Vegetables	96

Progress Check	109
Answers	117
Exam	125
CHAPTER FIVE: ((DAIRY SCIENCE AND TECHNOLOGY))	
Milk	127
Milking machine	127
Milk processing	127
Homogenization objectives	128
Factors that affect homogenization	128
Centrifugation	129
Cream separation	129
Cheese making	130
Blue cheese	130
Processed cheese	130
Cheese ripening	131
Yogurt	131
Fermentation	133
Steps in the manufacture of ice cream	133
Sterilized cream	133
Whipped cream	134
Butter	134
Vocabulary	135
Summative Test	140
Answers	142
Progress Check	145
Answers	147
Exam	150
CHAPTER SIX: ((FOOD PROCESSING TECHNOLOGIES))	
Cereal Technology	151
Flour milling	151
Bread making	152
The level of amylase	153
Dividing	153
Rounding	154
Proving	154
Beverage technology	154
Sugar Technology	155
Crystalization	156
Oil technology	156
Separation by Cooling and Filtration	156
Refining	157
Chemical refining	157
Bleaching	157
Hydrogenation	158
Decaffeination	158
Meat science and technology	159
Cooked sausages	159
Vocabulary	159
Summative Test	165

CHAPTER SEVEN: (FOOD PLANT DESIGN, FOOD ENGINEERING, FOOD RHEOLOGY)	
Food processing plant	181
Food factory location	181
Plant layout	182
Cleaning and sanitizing	182
Food engineering	183
Conduction	183
Radiation	184
Microwaves	184
Fluid flow	184
Reynolds number	185
Rheology	185
Rheological properties	186
Texture	186
Sensory property	187
Vocabulary	187
Summative Test	191

Exam	206
CHAPTER EIGHT: ((FOOD PACKAGING))	
Packaging	207
Permeability Characteristics	208
Migration	208
PET	209
Low-density polyethylene	209
Polystyrene	209
Coated films	210
Laminated films	210
Modified atmosphere packaging	210
Gas flushing	211
Vocabulary	211
Summative Test	214

CHAPTER NINE: ((NUTRITION))	
Nutrition	221
Malnutrition	222
Kwashiorkor	222
Minerals	222
Nutritional deficiency	223
Excessive intake of a mineral	223
Energy	223
